Notes:

- List price refers to publisher's suggested retail price.
- CCV Software and Diskcovery sell software (often academic versions) to qualified schools, educators and students. Academic versions are usually full-version software titles, but may not be upgradeable. Contact the companies for complete details on individual software titles.
- Online price refers to an online search (12/31/02) conducted at the CNET web-site. Prices can change daily, and do not including shipping and handling charges.
- Information on this sheet should be used for comparison purposes only and is NOT to be considered a price quote by any company.
